

Forklift mast Bearing-30208

WUXI GUANGQIANG BEARING TRADE CO.,LTD

Teniendo No.

I	30208
II	80508K
Tipo	sesenta y cinco
Dimensiones [mm]	
D	A
D	40
C	116
B	24.5
Teniendo No.	
III	18
IV	L20208

Whether you call them **forklift mast guide rollers**, forklift **roller bearings**, or **mast guide bearings**, these bearings are designed for heavy load carrying capacities and high intermittent shock loads, such as those in forklift applications.

The internal design of mast guide bearings and other varieties of track roller bearings maximizes load capacities to protect bearing components and applications from high radial and thrust loads. Tight seals and high grease-fills are used to ensure minimal wear and tear and the highest possible lifespan for the bearing components.
